FIG. 19

This cross-sectional view shows a central shaft (32) passing through a housing (34). The shaft has a central bore (35a) and is surrounded by a sleeve (36). The housing (34) has a central bore (35a) and is surrounded by a sleeve (36). The housing is shown in a cross-section with diagonal hatching. The shaft is shown in a cross-section with horizontal lines. The sleeve is shown in a cross-section with diagonal hatching. The housing is labeled with 34a, 34c, and 34d. The shaft is labeled with 32 and 32c. The sleeve is labeled with 36. The central bore is labeled with 35a. The housing is also labeled with 33a. An arrow A points to the housing.

A cross-sectional view of a mechanical assembly. A central shaft (32) passes through a housing (34). The shaft has a central bore (32c). A component (33) is mounted on the shaft, with a flange (36) extending from its outer surface. The housing (34) has an inner bore (34c) and an outer flange (34a). The housing is shown in cross-section with diagonal hatching. An arrow (A) points to the left side of the assembly.
